

# Facilitating Mobile Device Deployments in Retail

The deployment of mobile devices throughout the retail industry is quickly expanding. 85% of organizations are currently in the research or pilot phase of a deployment—many of which are implementing mobile devices with the goal of improving communications, reducing costs or increasing revenues.<sup>1</sup> Would it surprise you learn that **73% of organizations fail to plan how they'll centrally charge and secure those devices,** prohibiting their program's ability to achieve intended results?

Statistics show that 10% of devices break or go missing each year of a deployment,<sup>1</sup> which may be avoided if the devices are centrally secured and charged. This critical oversight can create painful hassles for employees and administrators alike. LocknCharge exists to help organizations rise above the rest and achieve deployment objectives by offering a solution to streamline device deployment and secure your investments.

## Why is your organization leveraging mobile devices?

# Enabling Your Mobile Device Workflow

## Centralized Charging

### Putnam 8 or 16 Charging Station™

- Charge, store and secure 8 or 16 iPad or tablet devices
- Quickly know the charging status of each device via the External LED charging display
- Short, organized cables allow you to reconnect devices quickly
- Small footprint and stackable design keep valuable desk or counter space free
- Pre-wired with lightning cables for easy setup
- Access all devices quickly with one, programmable combination lock

## Mobile Charging

### CarryOn™ Charging Station

- Charge, store, secure and carry up to five iPad or tablet devices
- Easily move mobile devices throughout or between stores
- Quickly plug in devices with simple cabling and anchored cords
- Enable associates to collect survey results
- Small footprint keeps valuable desk space free
- Secure the station to a wall or desk with the provided mounting bracket and padlock

## On-Demand Charging

### FUYL Tower 15™ Charging Locker

- Features 15 individually-lockable compartments, each equipped with one power outlet and one 2.4 amp USB port
- Manage assets on devices, view tower usage and assign access through a web portal
- Securely charge devices without being tied to an individual outlet
- Employees can charge, store and secure personal mobile devices during their shift
- A seamless solution for check-in, check-out device programs or device loaner programs

## Key Benefits of LocknCharge Products

**Compatible\* & Secure.** We have a product to charge, store and secure just about any mobile device out there.

**Efficient.** Our goal is to save your employees time by allowing for efficient charging and quicker distribution of devices.

**Small Footprint.** We design our products to take up the least amount of space possible—which means your charging solution will fit into your current floor plan.

**Durable Products & Lifetime Warranties.**<sup>4</sup> Our products are made with high-quality steel and most are backed by a lifetime warranty, protecting your device investment without worry.

**Customer Support that Goes Above and Beyond.**

Our local Customer Support Team will help solve any issue you may have with your LocknCharge product. Plus, a dedicated support website empowers you with valuable resources to easily troubleshoot common questions.
