

Joey 30 Cart™

Charge, store, secure and transport up to 30 devices, starting at £899.

Efficient charging. The Joey 30 Cart is capable of charging up to 30 mobile devices simultaneously.

Compatible.¹ The Joey 30 Cart can accommodate almost any device - with or without covers in the new divider storage system.

Secure. The Joey Cart is made with high quality steel and includes a padlock to assure that devices are secured when not in use.

Portable. Easily wheel the Cart where devices are needed in this lightweight Cart. For extra portability, Baskets by LocknCharge can be purchased separately to assure devices can be safely and quickly distributed.

Style meets functionality. The Joey 30 Cart is a small-footprint cart that is easy to manoeuvre and features a top loading design so that devices can be accessed quicker, easier and by more users at once.

lockncharge

It just makes life easier.

Affordable with LocknCharge Benefits. The Joey 30 Cart allows schools to enjoy the education-focused designs LocknCharge is known for at an entry level price. An easy to use, compatible and secure design assures that you only pay for what you need. Only add the features you need - from optional Baskets to lock down kits - you can customize the Joey to best fit your deployment needs.

Eliminate Time Consuming Wiring.

Cabinet style carts can take 2-3 times longer to wire compared to our top-loading design. The unique side channel system holds cables in place, while being easy to plug devices in. A separate compartment houses the charging bricks to keep the device storage area neat.

Safe, efficient and a future proofed power management system.

ECO Safe Charge™ can handle the power requirements of almost any device by staging the availability of power to each bank of devices.

No more bending down to access devices on a bottom shelf.

Our top loading Cart offers multiple access points to the devices and allows for quicker distribution. It also assures no one has to bend down to get devices off the bottom shelf.

Secure. Lock away the devices in the storage area with a padlock, while an optional anchor kit locks down the whole Cart for additional security. Easily switch your fleet of Carts from keyed different to keyed alike locks depending on your deployment needs.

Lightweight. Easy to maneuver and push through tight spaces make the Joey Cart a nice upgrade from traditional bulky cabinet style carts.

External Charging Status Display. Easily know the charging status of your devices through an external display of the EcoSafe Charging System. No need to wonder if your cart is on and working.
